

Your first port of call for marine resourcing and consultancy

# Company Profile

## **EMCS International Limited**

(trading as “EMCS” and “Sesmarine”) is a family run business based on the Isle of Man (British Isles) with over ten years experience as one of the most highly regarded and sought after service providers in the marine industry.

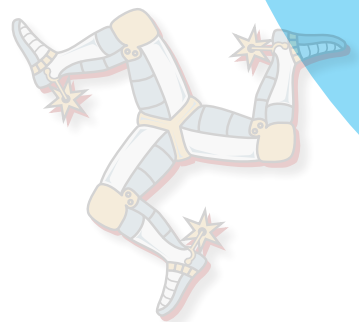

**EMCS** was established in 2000 by current owner and Managing Director Steve George to fill an identified need in the marine industry worldwide for highly skilled, efficient, cost-effective and properly supervised labour for afloat and ashore repairs worldwide. Steve has over thirty-five years experience in the maritime industry, from Chief Engineer to Technical Director.

**EMCS** understands the business of ships and the sea, having wide ranging and extensive experience with owners, managers and operators of all types of vessels, off-shore structures and shipyards, vessel construction sites and repair facilities.

**EMCS's** company profile and services are continually improving and expanding in line with the ever changing requirements of the maritime industry.

# EMCS International Limited –

## ***Shipyard Labour Supply***

**EMCS** is sole/preferred supplier of sub-contract labour to numerous shipyards worldwide, for example:

- Blasting, rigging, mechanical and steel fabrication works at Caribbean Shipyard utilising Romanian labour.
- Steel and mechanical works (on project/all-inclusive basis) at European Shipyard utilising Polish labour.
- Piping, rigging and steel works at Mediterranean Shipyard utilising Romanian/Polish labour.

## ***10,000 hour Engine Overhauls (LNG Fleet)***

Full engine overhauls on vessel's Wartsila and STX/ MAN B&W (Main and Auxiliary) Engines. Overhauls completed in all cases in good time and to the satisfaction of vessel's owner.

## ***Fleet Slow Steaming/Consumption Analysis***

Analysis of 100+ vessels' specification/performance with report back and proposal of suggested improvements and adjustments for each vessel's speed consumption. Suggested changes have been successfully implemented globally.

## ***Fleet Inventory Taking Project***

Numerous teams of Romanian storekeepers assigned to undertake essential storekeeping works across Tanker Fleet (Gas, Chemical, Products, Lightering, etc.). Project completed to satisfaction of all parties.

## ***Steel Repairs on Bilges and Pontoons of Rigs***

Polish Coded Welders and Steel Fitters (holding the required Offshore Safety Certification) employed as part of a repair team for steel work on affected areas of North Sea and Med based rigs.

# - Sample Project Experience

## ***Ballast Tank Upgrading on Chemical Tanker Fleet***

7 x specialist ballast tank upgrading teams (Ukrainian/Indonesian) across the fleet, assigned for essential cosmetic upgrading works worldwide, utilising:

- Paint removal with hand tools, and...
- UHP Water Blasting Machines

with stripe coating paint re-application.

## ***Steamline Repairs (LNG Vessel)***

Essential repairs to steamline on an LNG vessel trading worldwide as part of a winterisation project. Project managed from initial vessel inspection to successful repair by (Ukrainian) Riding Team.

## ***Hull Cleaning/Inspections (Container Fleet)***

All required underwater works for a container fleet trading worldwide (e.g. Singapore, China, UAE and Caribbean) including inspections for Class, hull cleaning work (including silicon coatings), propeller polishing and various underwater repairs.

## ***Deck Repair (Heavy Lift Vessel Fleet)***

Essential steel repair, upgrading and vessel adjustment works across a fleet of heavy lift vessels worldwide using specialist Ukrainian Steel Worker Teams including Engineer Level Foremen.

## ***Re-fitting of accommodation (and general repairs) on cruise vessel***

Demolition and re-fitting of accommodation areas on a cruise vessel in service and during drydock. Project included steel fitting, coded welding and full outfitting services (and extended to other areas of the vessel). Ukrainian labour utilised.

## Ship Superintendents' Training Course

**EMCS** manage the highly successful "Ship Superintendents' Training Course". The programme is based in the Isle of Man and is conducted over an intensive nine day period. The Course is endorsed by DNV, IMarEST, the Nautical Institute, the Isle of Man Marine Administration and counts towards delegates' Professional Development (CPD) points.

### *Typical Delegate Profile*

Whilst the course was originally designed with sea-going engineers/newly appointed superintendents in mind, the typical delegate profile has changed considerably since the first programme in 2006 as it has become clear that the course is of great benefit to all manner of backgrounds and experience within the marine industry.

This programme has attracted delegates from all over the world and from a range of organisations within the maritime industry including ship managers, owners, repair companies, financial institutions, etc.

### *Programme Information*

Sample of topics covered by industry expert lecturers as follows:

- Report writing, handling owners, drydockings, bunkering
- Maritime Law and Maritime Insurance
- Management Accounts and Book-keeping
- The Role of Classification Societies
- Key Performance Indicators

The Programme is held twice a year, typically in the months of April/May and October.

For more information, including details on the next scheduled course dates and timetable, or to discuss your specific requirements, contact **Cheryl Reeday**, Course Administrator or **Steve George**, Course Manager (contact details overleaf).
