Navicom Marine Ltd - Introduction

Navicom Marine Ltd is a local Maltese established company set up to cater for overhauls, repairs and installation of various types and brands of navigation and communication equipment onboard sea-going vessels.

With the current fleet of vessels calling Malta ports, the demand for electronics services is being required more frequently than ever to meet owner's expectations to have their ships in service in the most efficient and safely manner.

Navicom Marine Ltd has invested in a dynamic team of skilled, experienced and licensed engineers who are trained by foreign manufacturing companies. Their ability has proven record of distinct performance and results.

The company, Navicom Marine Ltd, can handle the following:

Navigation

Radars
ECDIS
GPS
Gyro Compass
Magnetic Compass
Autopilot systems
AIS
Speed Logs
Echo-Sounders

Communication

GMDSS (incl. Radio Surveys: LR, DNV.GL)
SSAS

Systems

VDR/SVDR incl. APT (Kelvin Hughes)
BNWAS installation and repair

Our engineers are capable to service mainly the following brands of equipment:

- Raytheon
- Anschutz
- Kelvin Hughes
- SAAB TransponderTech
- Northrop Grumman Sperry Marine Systems including Sperry Marine and C. Plath
- Sam Electronics - Debeg, Atlas
- Japan Radio Corporation – JRC
- SAAB R4/R5 Transponder Tech
- Amesys BEN Marine

Navicom Marine LTD is the local representative and approved station for Kelvin Hughes LTD, Amesys BEN Marine, and SAAB R4/R5 TransponderTech A.B.

Navicom Marine Ltd also subcontracts electro-mechanical work onboard ships.

Our company is making itself available to your attention and eventual co-operation in the hope of creating a business relationship. Furthermore, our prices in the market are attractive and very competitive. We are looking forward with interest to acknowledge enquiries and service requests to extend our business opportunities.
