

Your first port of call for marine resourcing and consultancy

## Company Profile

### EMCS International Limited

is a family run business based on the Isle of Man (British Isles) with a proven background as one of the most highly regarded and sought after service providers in the marine industry.

**EMCS** was established in 2000 by owner and Managing Director Steve George to fill an identified need in the marine industry worldwide for highly skilled, efficient, cost-effective and properly supervised labour for afloat and ashore repairs worldwide. Steve has over forty years experience in the maritime industry, from Chief Engineer to Technical Director.

**EMCS** understands the maritime industry, having wide ranging and extensive experience with owners, managers and operators of all types of vessels, off-shore structures and shipyards, vessel construction sites and repair facilities.

**EMCS** are approved by the Isle of Man Flag to provide specialised labour for afloat repairs according to the requirements of MLC 2006 and are ISO9001:2015 certified.

Steve and Richard George conducting a vessel inspection

## Ship Superintendents' Training Course

EMCS manage the highly successful "Ship Superintendents' Training Course". The programme is based in the Isle of Man and is conducted over an intensive nine day period. The Course is endorsed by DNV, IMarEST, the Isle of Man Marine Administration and counts towards delegates' Professional Development (CPD) points.

### Typical Delegate Profile

Whilst the course was originally designed with sea-going engineers/newly appointed superintendents in mind, the typical delegate profile has changed considerably since the first programme in 2006 as it has become clear that the course is of great benefit to all manner of backgrounds and experience within the marine industry.

This programme has attracted delegates from all over the world and from a range of organisations within the maritime industry including ship managers, owners, repair companies, financial institutions, etc.

### Programme Information

Sample of topics covered by industry expert lecturers as follows:

- Report writing, handling owners, drydockings, bunkering
- Maritime Law and Maritime Insurance
- Management Accounts and Book-keeping
- The Role of Classification Societies
- Key Performance Indicators

The Programme is held twice a year, typically in the months of April/May and October/November.

For more information, including details on the next scheduled course dates and timetable, or to discuss your specific requirements, contact **Cheryl Reeday**, Course Administrator or **Steve George**, Course Manager (contact details overleaf).
